

Gear Selection Charts

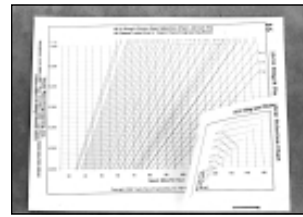

10:31 Ring & Pinion Gear Selection Chart - 22 Inch Tire All Gears Listed are in Taylor Race Engineering, Inc. Stock

“Ratio” Gear Selection Program

This gearing program is the perfect replacement for the paper chart. It is easy to use, showing a graphical representation of the gears selected, including peak MPH and shift RPM drop. We have quit using paper charts since we got this program. Windows 95
Part # 0200181

\$67.50

Gear Chart For MK and LD

For those who prefer a printed chart. Tablet of charts covers MK and LD with 9:31 or 10:31 R&P and 22" tire. The FT200 chart is a reusable, laminated plastic chart based upon 9:31 R&P and 23" tires.

Part # 020016 MK/LD Gear Chart Tablet \$ 5.00
